DETAILED ACTION

Claims 1-6, 8-11 and 13-18 are currently pending in the instant application. Applicants have cancelled claims 7, 12, 19 and 20 in an amendment filed on June 30, 2008.

I. *Response to Arguments*

Applicant's arguments, filed June 30, 2008, have overcome the rejection of claim 7 under 35 USC 112, first paragraph as failing to comply with the enablement requirement; the rejection of claims 10-12 and 15-20 under 35 USC 112, first paragraph as failing to comply with the enablement requirement; the rejection of claim 9 under 35 USC 112, second paragraph as being indefinite and the objection of claims 6, 14, 16, 18 and 20 for informalities. The above rejections and objection have been withdrawn.

The Examiner has maintained the rejection of claims 11, 17 and 18 under 35 USC 112, second paragraph as being indefinite for the genus term "a peripheral vascular disease" because Applicants have failed to define the term in the specification to know the metes and bounds of the term.

II. *Rejection(s)*

Claim Rejections - 35 USC § 112, 2nd paragraph

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 11, 17 and 18 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Specifically, the genus term "a peripheral vascular disease" present in the method claim 11. The above term embraces numerous diseases and disorders but Applicants' have failed to define what diseases are included or excluded by the terms. The above term is not defined in the claims so as to know the metes and bounds of the claims. Therefore, the claims are indefinite.

III. Conclusion
